The Write Tools

“I don’t know how to teach writing effectively.”

“There’s never enough time to work on writing every day.”

“What do I do with students who can’t write?”

“How do we help students be more successful on the new NSCAS writing items?”

Sound familiar? The Write Tools Workshop addresses these challenges—and many more. Join this workshop for a fun, interactive experience that removes the guesswork from writing instruction. You’ll learn an explicit, systematic approach to teaching writing that can be immediately implemented in your classroom that works for all learners, at all levels, in all subjects.

Packed with practical strategies and hands-on learning, these two days fly by as you collaborate and learn alongside fellow educators. You’ll leave saying, “This is easy! This is fun! Why didn’t someone tell me this sooner?”
