Incident Response Plan Work Day

January 20, 2027
9:00-2:00

Register Here

Technology directors, administrators, and other school leaders are invited to join us at ESU 13 for a hands-on Incident Response Plan (IRP) work day.

Whether you're building your plan from scratch or updating an existing one, you'll have dedicated time to work with colleagues and ESU 13 staff.

Bring your laptop and any current documentation, and leave with a stronger, more actionable IRP.

Scott Isaacson (ESUCC) and a team of cybersecurity experts will lead the day and be available as resources.
